

Shared car quick guide

Starting the drive

1. Start your booking in the app
2. Open the doors
3. Disconnect the charging cable from the car
4. Hang the coiled charging cable on the hook on the charger and insert the plug into the socket on the rack.
5. Start the car by pressing the brake pedal and the Start button
6. Fast charging: the fast-charging plug is located under the normal charging plug, covered by a protective plug

Ending the drive

1. Shift gear to P, switch off the engine by pressing the brake pedal and the Start button
2. Connect the charging cable into the car
3. Lock the doors
4. End your reservation in the app and proceed as instructed in the app. Select your charging station, start charging and proceed to photographing
